

The `grid-template-rows` Property

Use the `grid-template-rows` property to define the size of the rows in a grid layout.

The first row in this grid is 100px high, and the second row is 300px high:

The `grid-template-columns` Property

Use the `grid-template-columns` property to define the number of columns in the grid layout.

This grid layout has four columns:

	1		
	2		
	3		
	4		
	5		
	6		
	7		
	8
